## ABOUT ME

Aspiring web developer curious about various topics - from programming, SEO to fashion and politics. Driven by desire to broaden horizons in web development and Wordpress.

I have experience in creating websites using HTML, CSS, JS, Python and their frameworks as well as SEO.

## WORK EXPERIENCE

○ Jul 2022 - Aug 2024

Digitech | 480 N Bedford Rd, Chappaqua, NY 10514, US

### Operation specialist

Handled patient and health insurance overpayments. Automated a part of data entry process by implementing a filter for handling repetitive data.

In this position, I was acknowledged by supervisors for strong analytical, critical thinking and teamwork skills, as well as attention to details.

## PROFESSIONAL TRAINING

○ CS50x - Introduction to Computer Science

Harvard University

Hands-on projects provided a solid foundation in a wide range of topics including C, memory handling, algorithms, web development, Python, SQL, JS.

○ CS50 - Web Programming with Python and Javascript

Harvard University

During CS50 for Web Programming with Python and JavaScript course I learned how to handle data both server and user-side, improved skills in JavaScript, Python, HTML, CSS, various frameworks such as Django, Bootstrap.

○ 4 week bootcamp in Software Engineering (Piscine)

42 Wolfsburg

Peer-to-Peer principle applied in this bootcamp helped to improve my teamwork and problem-solving, Git skills essential for IT field.
